great deal of difficulty getting on the same page as my law professor in writing my long paper. Simply following the very clear suggestions, I was able to on the first try get approval to proceed on my thesis, roadmap, and outline. I had my professor take a look at the book and she has ordered her own copy to have as a loaner in the future for students struggling as I did. This is an essential book for any law school student and I only wish I had it from day one. 0 of 0 people found the following review helpful. Wonderful Book....By Chynal'm still in the process of reading this book. I initially purchased it to help me win the Law Review Competition. However, I'm realizing the contents of the first 25 pages have given me tips to improve my legal writing in my core courses. 12 of 12 people found the following review helpful. Very helpful bookBy A CustomerThis book was recommended by a professor since the final grade was based upon a final paper. I wish I had this book since 1st year. Great for people who plan to "write on" to law review as well as write any kind of legal scholarly paper. Highly recommend this.

In order to inspire and motivate their readers, the authors have appended a selective list of student notes and comments and a chapter on techniques to help writers narrow their subjects and find theses. The authors added a section on reading for types of legal argument and an exercise to address increasing student concern over plagiarism. Includes a short section on the importance of editorial cooperation and communication. Offers a new chapter on entering writing competitions and publishing.
