From Mario Biagioli : Scientific Authorship: Credit and Intellectual Property in Science before purchasing it in order to gage whether or not it would be worth my time, and all praised Scientific Authorship: Credit and Intellectual Property in Science:

3 of 4 people found the following review helpful. Exceclent book on authorshipBy Paulo WaisbergThis is a collection of articles on authorship, from authors with diverse backgrounds . Some of them are very good. I particularly enjoyed Mr. Galison article on multiple autorship and The CERN. It think only that one would be worth having the entire book.

First Published in 2003. Routledge is an imprint of Taylor Francis, an informa company.

"'What is an author?' is a question that has been central to cultural and literary studies for almost thirty years. This collection of essays open up genuinely new perspectives on this question and shows us how much science studies has to contribute to fundamental issues in the humanities."-Arnold I. Davidson, University of Chicago About the Author Mario Biagioli is Professor of the History of Science at Harvard and author of *Galileo, Courtier*. He is editor of *The Science Studies Reader* (Routledge). Peter Galison is Mallinkrodt Professor of the History of Science at Harvard. He is the author of several books, including *Image and Logic* and is editor, with Caroline Jones, of *Picturing Science, Producing Art* (Routledge).
