HandbookBy James Storm ShirleyNot well made, difficult to navigate, and spine cracks at many sites during use... Paper too thin and subject to tearing... Can't use highlighter... "bible" type paper...0 of 1 people found the following review helpful. Statutes, statutes, statutes....By Lucca_LeoneThis book only contains environmental law statutes, so get ready for mind numbing reading material. My professor didn't make the topic interesting at all, and neither did the book.

This work contains the statutes one may confront in a law school environmental law course. Topics covered include public health, agriculture, commerce, mineral lands, and navigable waters.
