Roger Schechter : Selected Intellectual Property and Unfair Competition 2014: Statutes, Regulations and Treaties (Selected Statutes) before purchasing it in order to gage whether or not it would be worth my time, and all praised Selected Intellectual Property and Unfair Competition 2014: Statutes, Regulations and Treaties (Selected Statutes):

0 of 0 people found the following review helpful. Flimsy and bad index. By Dobiewankanobie The index on the back side of the book is not designed well. It is just like a normal procedural book, with a blackened stripe on the edge of

the page in which the section starts, and an arrow on the back cover that defines what is in the pages that have the black stripe in that location. But ALL of the pages within a section should be blackened, here it is only the first page. It is hard to find what they are directing you to. Also, the same index is a little off center. When the back page points to a certain page, the arrow is about 1/2 inch off, making it utterly confusing. The pages are flimsy and it is hard to hold. I have seen better procedural books.0 of 0 people found the following review helpful. the only book you'll need for learning US IP lawBy Matt Soperthis is an edited statute book with the relevant copyright, trademark and patent statutes. I use this book daily and it is a great desk reference. It is smart to double check the law, no matter how often you cite it in a day. I annotated my copy during law school with the key cases and have made the book and even better tool for practice.0 of 0 people found the following review helpful. Five StarsBy Abigail Paffordperfect accommodation for my patent law book- the statutes at my fingertips

The 2014 edition of this one-volume compilation of intellectual property statutes, regulations and treaties for law students and practitioners includes all the primary materials required for both basic and advanced courses in patent, copyright, and trademark law. The revisions in this edition incorporate numerous recent amendments and additions to various patent and copyright regulations which were designed to conform administrative practice to the provisions of several recently adopted IP treaties. The new edition also eliminates various now-obsolete provisions of the patent statute which predate the America Invents Acts, and thus enhances the usability of the patent materials in the volume.
