Selected Intellectual Property and Unfair Competition Statutes, Regulations, and Treaties (Selected Statutes):

The index on the back side of the book is not designed well. It is just like a normal procedural book, with a blackened stripe on the edge of the page in which the section starts, and an arrow on the back cover that defines what is in the pages that have the black stripe in that location. But ALL of the pages within a section should be blackened, here it is only the first page. It is hard to find what they are directing you to. Also, the same index is a little off center. When the back page points to a certain page, the arrow is about 1/2 inch off, making it utterly confusing. The pages are flimsy and it is hard to hold. I have seen better procedural books.

By Matt Soper
this is an edited statute book with the relevant copyright, trademark and patent statutes. I use this book daily and it is a great desk reference. It is smart to double check the law, no matter how often you cite it in a day. I annotated my copy during law school with the key cases and have made the book and even better tool for practice.

perfect accommodation for my patent law book- the statutes at my fingertips

The 2016 edition of this collection of primary source materials in intellectual property law incorporates the latest legislation in the field, along with selected regulatory revisions, making it one of the most up-to-date resources for use in both survey and specialized courses on intellectual property. The new edition has also been enhanced to improve readability. This new edition also incorporates the provisions of the just enacted Defend Trade Secrets Act of 2016 along with recent amendments to the patent statute and to the customs regulations relating to parallel importation. Of course the volume retains all the basic IP statutes along with numerous useful additional materials such as provisions of the Restatement of Unfair Competition, and the text of numerous international agreements dealing with intellectual property law, including the relatively new Hague Agreement Concerning the International Registration of Industrial Designs and the Beijing Treaty on Audiovisual Performances. The availability of all these materials in a single comprehensive volume which can be annotated by students makes it possible to use classroom time more efficiently and will enhance student learning throughout the IP curriculum.
