Book on seperating and divorceBy Marie Louise GrazulisThis book is a great help to get your life back together after being told your partner wants a divorce. I have always believed in God and his good ways but this reinforces my belief. We all need it at times like this.

Waiting to be reconciled or divorced can bring confusion, despair and hopelessness. This book offers the motivation and understanding you need to bring wholeness back into your life, despite the uncertainty of the future of your marriage. Seperated and Waiting provides good advice and comforting words for facing the fears, confusion, and struggles that lie ahead. You will also find freedom to love without expecations.
