Daniel Sitarz : Simplified Will Kit: National Legal Kit Series (Simplified Will Kit (W/CD)) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Simplified Will Kit: National Legal Kit Series (Simplified Will Kit (W/CD)):

7 of 7 people found the following review helpful. Easy to use Kit. By Andrea Hunt I purchased this kit so that my husband and I could create our own wills without having to pay for a lawyer. The book is great at explaining the little details of a will so that anyone can understand it. The only thing about the actual CD program that I didn't like was that once I created my will I couldn't save it. It only allowed you to create a will and print it. It would be easier to make future changes if I could just go in to a saved will and update it. The entire kit is easy to understand and use. The program highlights the fields that need to be filled in and pre-fills in some places for you.

A revised and updated edition of Nova's complete and easy-to-use guide to preparing a simple will that is valid in all
