**Darrell Poole PhD : Snippets: A Peek behind the Thin Blue Line** before purchasing it in order to gage whether or not it would be worth my time, and all praised Snippets: A Peek behind the Thin Blue Line:

Discover how some law enforcement officers cross ethical and legal boundaries over the course of their careers.

Recent headlines about excessive use of force, murder, sexual assaults, theft, and other transgressions committed by police officers taints the profession and trust that citizens place with those sworn to protect society. Law enforcement administrators, officers, elected officials, and the public must know what kind of officer violates the law and destroys trust with the people they protect. The same group must know what kind of ethical and legal violations occur. SNIPPETS: A Peek behind the Thin Blue Line includes data from a doctoral study about the effectiveness of professional ethics training standards in law enforcement, officer experiences, peer reviewed articles, news articles, and the Federal Bureau of Investigation to answer those questions and inform stakeholders about ethical issues and violations in law enforcement.

About the Author Dr. Poole is a police officer who lives in Alexandria, Louisiana with his wife and two sons. Dr. Poole received his doctorate in 2012 for work analyzing the effectiveness of ethics training for law enforcement officers. Leisure activities include spending time with family, farming, camping, developing water collection systems, and charitable activities with local schools.
