From Ingramcontent : Social and Economic Rights in Theory and Practice: Critical Inquiries (Routledge Research in Human Rights Law) before purchasing it in order to gage whether or not it would be worth my time, and all praised Social and Economic Rights in Theory and Practice: Critical Inquiries (Routledge Research in Human

Rights Law):

Since World War II, a growing number of jurisdictions in both the developing and industrialized worlds have adopted progressive constitutions that guarantee social and economic rights (SER) in addition to political and civil rights. Parallel developments have occurred at transnational level with the adoption of treaties that commit signatory states to respect and fulfil SER for their peoples. This book is a product of the International Social and Economic Rights Project (iSERP), a global consortium of judges, lawyers, human rights advocates, and legal academics who critically examine the effectiveness of SER law in promoting real change in people's lives. The book addresses a range of practical, political, and legal questions under these headings, with acute sensitivity to the racial, cultural, and gender implications of SER and the path-breaking SER jurisprudence now emerging in the "Global South." The book brings together internationally renowned experts in the field of social and economic rights to discuss a range of rights controversies from both theoretical and practical perspectives. Contributors of the book consider specific issues in the litigation and adjudication of SER cases from the differing standpoints of activists, lawyers, and adjudicators in order to identify and address the specific challenges facing the SER community. This book will be of great use and interest to students and scholars of comparative constitutional law, human rights, public international law, development studies, and democratic political theory."

About the Author Helena Alviar Garcia is Dean of the Faculty of Law at the Universidad de los Andes, Bogota, Colombia. Karl Klare is the George J. Kathleen Waters Matthews Distinguished University Professor at Northeastern University School of Law, Boston, USA. He was one of the founders of the Critical Legal Studies movement. Lucy A.
