Southern DivorceBy Edwin Stowe Jr.I read Southern Divorce and found it both fascinating and helpful.Fascinating because of the information about Southern Culture. I didn't realize this was not only the Bible Belt, but the divorce belt as well. The book is helpful because of all the practical information it gives you about the divorcing process, from how to hire a lawyer to how to protect your assets.I would highly recommend it.0 of 0 people found the following review helpful. The book is full of useful information on how to survive the divorce process without getting hurt by the legal system. I wish it had been around when I filed for divorce.
