Tim Bond : Standards and Ethics for Counselling in Action (Counselling in Action Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Standards and Ethics for Counselling in Action (Counselling in Action Series):

Get 24 months FREE access to an interactive eBook* when you buy the paperback! (Print paperback version only, ISBN9781473913974) To find out more visit: <https://study.sagepub.com/counsellingethics> Textbook with free access to counselling videos and other digital resources! The fourth edition of this classic text includes FREE access to an interactive eBook edition, which gives you on-the-go access to a wealth of digital resources supporting the print edition. It includes: * 16 counselling scenario videos * 16 author discussion videos * an interactive glossary * journal

articles * interactive multiple choice questions * live links to useful websites, including ethical codes and frameworks relevant to the UK and internationally. The 16 counselling scenario videos illustrate key ethical topics, issues and dilemmas arising in counselling practice, including: contracting, confidentiality, working with a client with suicidal intent, counselling in a digital age, counsellor self-care - and much more. In the 16 author discussion videos, leading expert Tim Bond gives his reflections on each counselling scenario, to support you in your ethical practice. Other updates to the new edition include three new chapters on Working with Social Diversity, Counselling in a Digital Age and Being Accountable: Evidence-based Practice and Monitoring and new content on reflective practice to encourage ethical mindfulness. This is the ultimate guide to standards and ethics in the psychological therapies and a must read for all trainees and practitioners. Tim Bond is an Emeritus Professor of the University of Bristol and Visiting Professor to the University of Malta. We are putting the finishing touches on all of the carefully crafted tools and resources that will soon be available to you on the interactive ebook. Please check back soon to see what the interactive ebook has to offer! *interactivity only available through VitalSource eBook9781473913974

Having spent some time perusing a variety of clips and articles and completing the questionnaires, I felt very satisfied. This was firstly due to successfully accessing the the various resources, and secondly because the learning element of this approach exceeded my expectations. As with the book itself, the interactive eBook is ideal for therapists at all levels of training and experience. The biggest challenge for some may be the apprehension about working online in this way, but take a deep breath and go for it. It really will be worth it! -- Angela Cooper, counsellor and supervisor Tim has managed to further enhance what was already an excellent text. The three new chapters add contemporaneous issues as well as, by embracing modern techniques and means of delivery, it has made it a very accessible text. This book continues to be the leading text for applied standards and ethics for counsellors, psychotherapists as well as for counselling students. -- Peter Cardew The revisions and additional online materials accompanying the current edition of this seminal text on ethics ensure that this book continues to make a valuable contribution to the dissemination and understanding of ethics within the profession. It provides a great teaching resource, making ethics accessible to everyone. -- Dr Hazel James Tim Bond's book has been a staple of teaching ethics in counselling psychology for many years. This new edition promises to be even better with the web-based video material that students like so much to bring topics alive. The new chapters too on for example the Digital Age and Working with Social Diversity ensure it brings ethics into the forefront of modern psychological practice. The chapter that endures in relevance for most people I think is the one on Ethical Problem-solving; students learn the framework by heart and it is something that then equips them throughout their clinical practice. -- Nicola Gale The fourth edition of Standards and Ethics for Counselling in Action is a valuable resource for people undertaking training in Counselling Psychology or Counselling. The book takes the concept of ethics and brings it to life, with ethical scenarios and dilemmas throughout the various chapters. The book is full of up-to-date and relevant information. The chapter on 'Counselling in a Digital Age' is particularly relevant and current, and it helps to answer many of the questions asked by trainees and qualified practitioners alike. The author presents the subject of counselling ethics and standards of practice in an accessible, interactive and engaging format. A comprehensive yet easy to read resource that will complement teaching of ethics within Counselling and Counselling Psychology, highly recommended. -- Dr Jessica McCarrick Tim Bond's Standards and Ethics for Counselling in Action, now in its 4th edition and with an interactive eBook, brings the theory and practice of counselling ethics into the 21st century. Reflecting changes in counselling terminology (e.g. people vs individuals), and with additional chapters on counselling in the digital age, working with social diversity and evidence-based practice, Bond reflects on the challenges of contemporary counselling practice while continuing to maintain core principles and practices to guide ethical decision making. Standards and Ethics for Counselling in Action has reliably been prescribed reading in our Ethics and Professional Practice subjects; updated and with the accompanying counselling scenario videos it is both an invaluable and timely resource for counselling training programs, students and practitioners alike. -- Kathleen Gregory PhD This book clearly lays out the range of areas that all reflective practitioners need to consider as we move towards the professionalisation of psychological therapies. An excellent source of reference for both experienced practitioners and those in training, this book defines the ethical responsibilities that require a depth of consideration throughout the practitioner's career. The Psychological Therapies course team at Leeds Beckett University will definitely introduce this latest edition to the 'must read' list, from Cert through Dip PG/HE, BSc and Masters courses. -- Brian Charlesworth "This is a very thought-provoking and valuable resource for anybody undertaking counselling, either as practitioner and even as a client. The book is not only very easy to read but also extremely interesting. It should form the basis of all counselling and psychotherapy training and be a well-thumbed resident on everyones bookshelf" Grainne Griffin, Head of the Professional Conduct Department, BACP About the Author Tim Bond is an Emeritus Professor of the University of Bristol and Visiting Professor to the University of Malta. He has a longstanding commitment to researching and writing about professional ethics for the talking therapies and promoting mental well-being. He is currently a consultant to the British Association for Counselling and Psychotherapy on professional ethics and standards, a member of the Ethics Committee for the British Psychological Society and the Executive Council of the International Association for Counselling. He is a

registered member of BACP and provides counselling supervision and training workshops.
