Goodel just finished this excellent book which the Academy for Coaching Parents International ([...]) will be using for a specialty course: *Coaching Co-Parenting for Separated and Divorced Parents*. The author writes from personal experiences and professional viewpoints about making the divorce process easiest for parents. First and foremost, he reminds the reader that divorce only changes relationships, it doesn't end them, AND the child is always the priority. He offers practical solutions to scheduling, transportation issues, money and support and litigation processes. He tells common sense truths: work out your issues before you come to court. You do not really want a judge telling you how to live your lives for the rest of your lives. Keep your emotions in check or you could be seen as unstable. Manage your stress during the process because it will eat you before you are aware that it happened. The author also is very clear on what not to do to your kids...like make them be the go-between and messenger. Get the idea?? Buy the book, one of the best I've seen yet. 0 of 0 people found the following review helpful. *Stop Fighting Over the Kids* is packed with information delivered ...By Larry Sarezky, Esq. *Stop Fighting Over the Kids* is packed with information delivered by an obviously savvy lawyer. But what makes it so special is its humanity that comes from the author's own experience of a custody battle and the wisdom he picked up along the way. Bravo, Mike Mastracci! 0 of 0 people found the following review helpful. *Best Verbiage to Find Peace* By Linda H. Schilling Such a difficult situation that the author absolutely and honestly relates to giving a subjective and objective approach that can work. "Be the superior parent." I have loved the scenarios, legal definitions, and sincere heart filled advice. Most of all, this author knows his stuff -from the legal aspects and from his heart. It is an amazing book with such wisdom.

Learn to resolve problems divorcing couples often face, including disagreements over physical and legal custody, the primary residential schedule, child access and visitation, telephone contact, day care dilemmas, holidays and vacations, interacting with school officials, teachers, doctors and therapists as well as access to medical and educational records, sports involvement, participation in special events and extracurricular activities, financial woes and parent to parent communication difficulties. A uniquely informative, child focused, thought provoking, inspirational and lightly entertaining book full of sound and sensible legal, parental, practical and situational guidance. The author survived his own gut wrenching high-conflict child custody battle and shares his knowledge and wisdom to immediately and effectively assist you. The collaborative divorce model is introduced and many valuable resources, including sample parenting agreements and collaborative contracts, are included.

About the Author Mike Mastracci is a nationally recognized family law attorney with over 20 years of experience. After surviving his own gut-wrenching divorce and child custody battle he became the founder and director of Maryland's first full-service Child Access Center. His programs have been widely used and respected by judges in several jurisdictions. Mastracci is also a founding member and former vice president of the Maryland Collaborative Law Association and belongs to many prestigious legal organizations including the International Association of Collaborative Professionals (IACP). Mastracci is committed to preserving parent-child relationships. He maintains the popular family law Blog: www.DivorceWithoutDishonor.com which is full of useful information, articles and resources. Mastracci encourages divorcing couples to educate themselves in the Collaborative Divorce method whereby they can demonstrate by their words and actions that they love their children more than they may dislike their ex.
