New York, 2010 ed.: *Leading Lawyers on Developing a Strategic Approach, Managing Client Expectations, and Adapting to New Trends (Inside the Minds)*:

Strategies for Family Law in New York provides an authoritative, insider's perspective on adapting to new legal trends for family law cases in the state of New York. Featuring partners and founders from some of the state's leading family law firms, these experts guide the reader through common family law issues and recent high-profile case decisions that have impacted the practice area, including issues surrounding child custody, domestic violence, military families, valuation of assets, the economic crisis, and the use of mediation or collaborative law. Highlighting the most important decisions handed down by New York courts in the past year, the authors explain the significance of these cases and discuss the changes they have made to their own strategy development process as a result. In addition, these leaders emphasize the role expert witnesses and financial consultants play in the dispute resolution process, especially during an economic downturn. The different niches represented and the breadth of perspectives presented enable readers to get inside some of the great legal minds of today, as these experienced lawyers offer up their thoughts around the keys to navigating this sensitive area of law. *Inside the Minds* provides readers with proven business intelligence from C-Level executives and lawyers (Chairman, CEO, CFO, CMO, Partner) from the world's most respected companies and firms nationwide.
