Inheritance law in the state of New York is a complex area with a long history and many recent changes. New developments in the last few years have changed the rules about the estate tax and introduced the potential of treating capital gains differently. In addition, as people live longer and family structures become more variable, the forms of trusts and wills must adapt accordingly. In *Strategies for Trusts and Estates in New York*, expert lawyers share their views and experience regarding all of these issues and more. This book discusses the changes in estate tax laws and income tax as it relates to trusts or inheritances. It also covers tools such as grantor retained annuity trusts and generation skipping trusts, and how attorneys and clients can best use them in estate planning. Finally, these authors also examine contested wills, and how to both cope with and prevent them. *Strategies for Trusts and Estates in New York* is a wide-ranging guide to a challenging area of practice. *Inside the Minds* provides readers with proven business and legal intelligence from leading C-Level executives and lawyers. Each chapter offers thought leadership and expert analysis on an industry, profession, or topic, providing a future-oriented perspective and proven strategies for success. Each author has been selected based on their experience and C-Level standing within the business and legal communities. Chapters Include: 1. Brian P. Corrigan, Partner, Holland Knight LLP - "Defensive Estate Planning" 2. Warren R. Gleicher, Partner and Chair, Tax Department, Olshan Frome Wolosky LLP - "Leveraging Recent New York State Tax Reforms for High-Wealth Families" 3. Mark E.
