S. Fraser, K. Valentine : Substance and Substitution: Methadone Subjects in Liberal Societies before purchasing it in order to gauge whether or not it would be worth my time, and all praised Substance and Substitution: Methadone

Subjects in Liberal Societies:

Located between three powerful phenomena, public health, the law and social stigma, methadone maintenance treatment attracts loyal advocates, vociferous critics and innumerable engaged onlookers. This book aims to examine the controversial approach to addiction, providing in the process a unique approach to literature on illicit drugs

'Substance and Substitution is an extremely impressive work of scholarship and a genuine advance on existing studies of methadone maintenance treatment and of drug use more generally. It marries innovative theory with diverse empirical materials, and goes beyond a number of well-established binaries (e.g. resistance/conformity, social/material, body/mind, morality/medicine) in trying to understand the 'co-production' of substance, time, identities and gender.' - David Moore, Associate Professor, National Drug Research Institute, Australia. About the Author Dr SUZANNE FRASER, Lecturer, Monash University, Australia. Dr KYLIE VALENTINE, Research Fellow, University of New South Wales, Australia
