Listening to other SS CDs in the car has helped me a lot when it comes to studying for exams but these have got to be the worst. Marc Perlin is an amazing professor and he really knows his stuff but he has ABSOLUTELY NO PLACE IN DOING AUDIO CDs!!! I am really not poking fun at him, merely the product, but his speech impediment makes it nearly impossible to focus on the lectures. It's like he's constantly trying to teach with a mouthful of soup.3 of 3 people found the following review helpful. Great set!By L. AdamsperzGreat purchase. I bought this set in place of taking the actual class. It appears that I learned as much law from this set as I would have learned from taking the class. Additionally, there were areas that the cds covered that could not be fully fit into a standard 3 credit class. Best of all, I could listen to it as many times as I needed.

Now you can assimilate the essentials of family law at your convenience. This audio product simplifies difficult concepts and brings them to life, while offering helpful exam tips.
