John Dzienkowski : Sum and Substance Audio on Professional Responsibility before purchasing it in order to gauge whether or not it would be worth my time, and all praised Sum and Substance Audio on Professional Responsibility:

Good professional responsibility review By Resolute Professor Dzienkowski provides a very thorough and complete review of professional responsibility. He provides examples and cases relating to each topic. Admittedly, the review is not as interesting as other Sum Substance law CD's, such as the Evidence CD's by Goode or the Criminal Procedure CD's by Dressler, but he covers the subject well. I initially purchased the Law School Legends professional responsibility by professor Chemerinsky, but I could not bear to listen to these CD's, as they were the worst I have listened to. I then bought Dzienkowski's review and found this to be much better. 8 of 8 people found the following review helpful. Wonderfully thorough By A. Burton This Sum Substance set on Ethics is wonderfully thorough with interesting examples and case descriptions. I have come back to this set multiple times for my ethics class in law school, the MPRE, and the bar exam. There are two potential drawbacks though: First, Professor Dzienkowski is soft-spoken and speaks in a soothing monotone. It makes staying alert a bit harder. Second, the set is probably too thorough. However, the tracks are split up by topic, unlike the Legends series, and it is fairly easy to tailor your listening. Minus one star for Professor Dzienkowski's voice. Otherwise, it's a great set. 0 of 0 people found the following review helpful. Great book By timothy Harris Great book.... Lots of information ..It is a must read for all audiences.
