**Sherri Burr : Sum and Substance Audio Set on Entertainment Law** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Sum and Substance Audio Set on Entertainment Law:

This audio lecture presents a lively overview of five important topics in entertainment law. It first summarizes intellectual property law, including the law of ideals, copyrights, trademarks, patents, and trade secrets. Second, it explains how credits and compensation are awarded in the film, television, and music industries. Third, it provides the listener with a synopsis of various contracts and clauses. Fourth, it analyzes representation issues, including cases addressing agents, managers, lawyers, and unions. Fifth, it discusses efforts to censor entertainment material and the various voluntary rating codes. The audio lecture references music clips to explain its points.
