**Shelley Day Sclater : Surrogate Motherhood: International Perspectives** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Surrogate Motherhood: International Perspectives:

A multidisciplinary collection of essays from leading researchers and practitioners, this book explores legal, ethical, social, psychological and practical aspects of surrogate motherhood. The international perspective adopted by this book offers an opportunity for questions of law, policy and practice to be shared and debated across countries.

An enlightening and absorbing book, it will be of interest to policy makers, practitioners and academics in various fields, including law, social policy, medicine and psychology. ChildRIGHT June 2004 It will be a helpful addition to University libraries, and will interest researchers, practitioners and policy makers as well as those working in areas such as family law, relationship counselling, and gender studies. Carolyn Michelle Infant and Child Development September 2004
