Regis W. Campfield, Martin B. Dickinson, William J. Turnier : Taxation of Estates, Gifts and Trusts (American Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Taxation of Estates, Gifts and Trusts (American Casebook Series):

2 of 2 people found the following review helpful. Good presentation of Estate Taxation By Bobby L. Burns This is a good case book that thoroughly covers estate and Gift Tax. The book provides a history of Estate Taxation. 3 of 3 people found the following review helpful. AmAzInG By Djay This a law book. BUT I did find it immensely easy to read and organized the revenue rulings quite nicely. 0 of 9 people found the following review helpful. Excellent By Hailey David The book was in great condition and was quickly received. Thanks for such great service!

A thorough, up-to-date presentation of estate, gift, and generation-skipping transfer taxes, as well as income taxation

of trusts and estates and income in respect of a decedent. The book also includes a thorough presentation of valuation issues. Each of the taxes is discussed independently so that a teacher may start with either of the taxes or, if he or she wishes, skip one. The use of the paragraph system makes it easy for a teacher to selectively assign materials. Other teacher-friendly features include an in-depth teachers manual that provides answers to all problems throughout the volume, and a discussion of planning opportunities throughout the various chapters.
