Marc Stauch, Kay Wheat : Text, Cases and Materials on Medical Law and Ethics before purchasing it in order to gage whether or not it would be worth my time, and all praised Text, Cases and Materials on Medical Law and Ethics:

Text, Cases Materials on Medical Law and Ethics presents a valuable collection of materials relating to this topical and increasingly controversial area of the law. Comprising extracts from statutes, cases and scholarly articles alongside expert author commentary and guidance, Medical Law and Ethics signposts students to all the key issues and principles in medical law. Divided into two parts, the text concentrates on the general principles that permeate medical law before considering the issues which arise in relation to individual areas of medical treatment. Fully

revised and updated, this new edition covers ethics more comprehensively, and includes much-enhanced theoretical treatment. This fourth edition has been fully updated to take account of recent developments in the law, particularly in the areas of assisted reproduction, euthanasia, cloning and stem cell research. For the first time, *Medical Law and Ethics* also incorporates a number of helpful pedagogic innovations, including bulleted summaries, questions for thought and further reading lists for each chapter, making it an ideal student companion to this popular subject.

"This volume is intended for use as a core text by undergraduate law students studying medical or health care law in England and Wales. The authors have assembled a range of materials, including extracts from statutes, judgments, and academic commentaries. They first address general principles of ethics; consent to treatment; the incapable patient; confidentiality, privacy, and access to medical records; and medical malpractice. In the second half of the text they turn to specific issues, offering chapters on assisted reproduction and embryo research, abortion and pre-natal harm, mental health law, medical research, organ transplantation, and euthanasia." *Book News*
