From Ingramcontent : The ACTA and the Plurilateral Enforcement Agenda: Genesis and Aftermath before purchasing it in order to gage whether or not it would be worth my time, and all praised The ACTA and the Plurilateral Enforcement Agenda: Genesis and Aftermath:

The Anti-Counterfeiting Trade Agreement (ACTA) is the most important effort undertaken to lay down a plurilateral legal framework for the enforcement of intellectual property rights. With the view to learn more about the origins of this treaty, the process leading to its conclusion and its implications for law making in this field, The ACTA and the Plurilateral Enforcement Agenda: Genesis and Aftermath analyses in great depth both the context and the content of the agreements. In order to attain this objective, a large and diverse group of experts - renowned scholars, policy makers, civil society and industry actors - who represent different perspectives on the necessary balance between intellectual property enforcement and other economic and social interests have been gathered together. This book is the most comprehensive analysis of ACTA, and of its relation with ongoing initiatives to improve enforcement of intellectual property and norms pertaining to a range of international legal regimes, conducted so far.

About the Author Pedro Roffe is Senior Associate at the International Centre for Trade and Sustainable Development (ICTSD), where he contributes to the work of the Programme on Technology, Innovation and Intellectual Property and Development. He often advises governments, international organizations and private entities. In his work, he has paid particular attention to international negotiations and has advised governments on strategies and policies on international aspects of transfer of technology, intellectual property and foreign direct investment. In his various capacities, he has published articles and books and has been responsible for a number of collective publications.
