Kermit Burton : The Alpha A-B Living Trust Kit: Special Book Edition with Removable Forms before purchasing it in order to gage whether or not it would be worth my time, and all praised The Alpha A-B Living Trust Kit: Special Book Edition with Removable Forms:

20 of 20 people found the following review helpful. InadequateBy A CustomerThis book is woefully inadequate even for someone who already has a good idea what a living trust is about. The author presents forms with filled-in lines as examples that leave no options and there is almost no text to explain the essence of the forms so that one can tailor the entries. Even with another book at hand explaining the purpose of a trust and what it has to say, the forms in this book leave one without guidance for personalizing the trust. There may be some who feel these forms meet their needs but then one is left to wonder if they really know what they're doing. The author gives his phone no. and encourages users

of his book to call him with questions but when I did, one response was something like, "Well, that's a lawyerly question". When I asked how to phrase something other than the 3 options given for the declaration of trust he offers, he said that all he offers is what is in the book. In all, I find this book limited, narrow and lacking sufficient backup for writing one's own living trust.

The complete do-it-yourself A-B Living Trust Kit with an easily prepared Declaration of an A-B Living Trust for a husband and wife that includes a Q-Tip Provisional Trust. Included also are Property Transfer Forms, a Pour-Over Last Will Testament, Trust Admendment Forms, Affidavit of Successor Trustee, Medical Certification and a Trust Activity Log. Includes completed examples of each form.
