But disappointed because it could not be notarized in PA unless you go to a lawyer.The phrase "being of sound mind" requires proof of the statement in front of a lawyer so if you live in Pennsylvania this great kit will be useless.54 of 55 people found the following review helpful. Probably as simple as a will can beBy Picturesque MusicBRIEF COMMENTSI chose my title carefully. Unfortunately, if you're looking for a simple page to briefly outline who takes care of your kids and where your modest possessions go, you won't find it here, nor do I suspect will you find it anywhere if it is to be legally proper.I have no legal training and so

cannot say whether this will kit is legally sound, but it sure has a lot of legalese and seems well thought out. Alpha Publications claims to have been in business for several decades, as well. If you're worth \$2M you probably can spend \$500 on a consult with an attorney; I suspect this kit isn't for you. WHAT'S IN THE KIT The kit has a ~30 page instruction booklet. You don't actually \*have\* to read this. I would peruse it once, though, and it's really not too bad a read. There are another 30 pages or so of example filled-out forms. I didn't read these, but they seem a good idea for those interested. The will itself consists of ~20 individual sheets. \*You won't use many of these\*. When you get, in the instructions, to the section where it tells you in very clear detail which sheets you need for your specific situation, it will tell you which sheets you need and which you don't. CREATING YOUR WILL Once you open this up the natural inclination may be to groan and throw it on your dresser, where it will stay for five months, then end up in the trash (maybe this is why so few people have wills). Fight that inclination. Once you get started you realize this really isn't so terribly difficult after all. So here is what you do: 1) Read the instructions that explain how wills work. 2) Go to the instructions' chapter 8--the "step by step" guide. 3) With the steps, identify which sheets you need. 4) Photocopy these sheets at least once. Your spouse will need to fill out their own copy and, lacking a spouse, you may make a mistake filling this out, or want to update in the future anyway. In my case I ended up having only around 8 sheets/forms, and 6 of them were nothing but signing my name and checking a box or two. 5 of 5 people found the following review helpful. Good information but ancient technology. By Mark I was expecting a book but received sixty three pages of text stapled together. The blank forms were not stapled together. It was nice to reminisce about the days when everyone had a typewriter but I was expecting something a bit more modern. An address where blank forms could be downloaded to be filled out on a computer would be nice. Alpha Publications was up to date enough to include their AOL email address. I may email them to see if downloads are available. That being said, reading the stack of stapled pages will familiarize the buyer with the legal jargon found on the forms. Quite a bit can be learned from the book but they really should update their technology. Mine had a copyright date of 2016.
