By Steven Landau Kevin did a great job showing and discussing the true ART of the patent process; an art most have overlooked for centuries. Most patent books do the literal obverse. I highly recommend this wonderful book for every patent expert, novice students, and even artists! I also just found out that he is doing a deck of patent art deck of cards on Kickstarter. 0 of 0 people found the following review helpful. Five Stars By Luca D'Ottone Good book! Makes a great gift. 1 of 1 people found the following review helpful. If you like technical drawings and inventions this book is a must ... By Uber Consumer It's exactly what it says it is! If you like technical drawings and inventions this book is a must have.

Most patents are what you would expect from a government document: downright boring. Yet the drawings on some are absolutely amazing, with beautiful line-art drawings that show in stunning detail the inner workings of everything from farming machines to airplanes to rockets. Join us on a tour of some of the best patent drawings ever created, as well as a glimpse of some of our most historically significant patents, spanning over 200 years of patent art. Since patent draftsman are not listed on patent documents, the artwork they create remains anonymous. This book brings out the best of those. With some interesting discussion on tools the draftsman use, and some of the more important patent drafting rules issued by the US Patent Trademark Office, this book will be appreciated by anyone interested in mechanical drawings, line-art illustrations, and fascinating milestones in patent history. Kevin Prince, an inventor and US Patent Agent, has collected a unique set of patent art over five years as a patent researcher, taking note along the way of those patents having exceptional artwork. Now he's brought this collection to the public, showcasing masterfully illustrated inventions from over two centuries. You will be surprised at what some of these artists created--many with just a pen and paper--as far back as 1794 with Eli Whitney's Cotton Gin.
