Good book, but not useful for a small or solo firmBy A CustomerOverall this book had a lot of good points which I hope to incorporate into my practice. However, there is only one thirteen page chapter on how to market yourself if you are a solo or small firm. The majority of the rest of the bok is on how to market a larger firm. As a solo practioner I would have liked to have seen more information in regard

to my situation. 1 of 5 people found the following review helpful. A mustBy Paul PomerleauIt's a great book that every lawyer (partner or associate) should read and read again. No theory.
