Easy to use and even fun to readBy Kindle CustomerSurprisingly amusing illustrations, comforting and full of the best kind of advice, the kind I can use! I do wish there was a newer version, but I must assume that means the laws for this have not changed yet, or maybe this sort of thing is no longer popular enough to reissue. Still I found this to be user friendly and well written.0 of 0 people found the following review helpful. ... is more of pre nip stuff - it's a good book but not at all what I was lookingBy TPTThis is more of pre nip stuff - it's a good book but not at all what I was looking for0 of 0 people found the following review helpful. should be on the shelves of every homeBy Reader ViewsReviewed by Abbie G. sample documents are accompanied by plain language explanations. Years of experience yield sound advice about what to include, what to exclude, and why every loving couple and their relationship benefit from a Couples Contract. By following the examples in this book and its companion CD, any couple can create a basic document that will both stand up in court and keep them out of court. "Its goals are to (1) reinforce your commitment to each other, (2) plant ideas that might help resolve relationship issues in the future, and (3) keep your relationship forever out of court." No one wants to consider that their relationship may someday come to an end. Having been through divorce myself, I know how ugly it can get. With this contract, based on mutual love, respect, and sound legal principals, there is no place for ugly court battles. Further, clarity about goals and financial issues lays solid groundwork to avoid many of the pitfalls that eventually lead to divorce. Even long term relationships between couples who choose not to marry benefit from the protection of a couples contract. I have already recommended this book to many friends. There is no wrong time to make the effort to create a couples contract. There are many reasons to do so. "The Couples Contract for a Lasting Relationship" should be on the shelves of every home and family law office in the country! Book received free of charge.
