Thank you2 of 2 people found the following review helpful. As a Marriage Counselor, I refer this book to all my couplesBy Richard Rupp, MFTAs a marriage therapist for over twenty years, I believe this book offers some of the best insights into marriage of any book I've read. I've recommended it to

every couple that I counsel, whether married for twenty-five years or just engaged to be married. The author has defined the same major symptoms of divorce that I see as a therapist. Married couples need to know these symptoms and make every effort to avoid them. Wendy Jaffe and all the divorce lawyers interviewed for her book provide priceless advice for how to have a successful and lasting marriage. Wendy's practical questions and key points after each chapter help couples to diagnose their own symptoms of divorce and what they can do to prevent them. Who knew that a hundred divorce lawyers could be a marriage therapist's best allies? 36 of 37 people found the following review helpful. Great Gift! By J. Seid A good friend recommended this book to me, and it has REALLY great advice! I was skeptical, because after all who wants advice from lawyers :-) but the lawyers in this book were exceptionally thoughtful and insightful. The author has interviewed over 100 divorce lawyers with thousands of years of experience and came up with some excellent advice as to how to avoid ending up at their office at the end of the day. I find myself talking about tips from the book all the time to my friends. It is a great reminder that all marriages take work, and that the grass isn't greener ANYWHERE, and that if we want a better marriage that won't lead ultimately to divorce there are simple things that we need to be doing every day to make our marriages more what we want them to be. This book never pretends like marriage is simple. The advice isn't just that standard, "be good to your husband and suddenly they will remember your anniversary" talk, it is really practical and easy to read. I am going to an engagement party this weekend for a good friend, and this is what I'm going to bring as my gift! After all, everyone knows that half of all marriages end in divorce and nobody wants to end up there! Happy reading!

This book provides concrete advice on how to prevent divorce from the real experts on the subject: divorce lawyers. Based in in-depth interviews with 100 of America's leading divorce attorneys, *The Divorce Lawyers' Guide To Staying Married* explains why divorce occurs and what can be done to immunize today's marriages from the ever-growing divorce epidemic.

"...discussed clearly and (the book) includes helpful anecdotes." -- Dennis Lythgoe, *Deseret News* (Jaffe) offers good advice and resources for helping to repair the damage. -- Marc Ballon, *Jewish Journal of Greater Los Angeles*, October 6, 2006 Every single person in a relationship should RUN and get this book! It's an easy read...and ever so helpful. -- EMME, *Supermodel/Author/Women's Advocate* Very well-written...(Jaffe) could have saved me a lot of money had she written this book several years ago. -- Gary Greenwood, *WBZY Radio*, March 2006 From the Back Cover Half of all marriages end in divorce...and who knows more about WHY these marriages failed, than the DIVORCE ATTORNEYS? Wendy Jaffe, a former divorce lawyer and daughter of prominent Beverly Hills divorce attorney Daniel J. Jaffe, set out on a quest to interview 100 prominent divorce lawyers all over the United States. Her mission was to uncover why some marriages succeed and others fail, and ultimately, what each partner can do to increase their chances of success. These attorneys contributed hundreds of hours and thousands of dollars of their valuable time to help Jaffe unlock the secrets of successful marriages. Their advice goes much deeper than simple "dos and don'ts." It digs deeply into the issues that affect every marriage: money, children, sex, extended families, communication and more. Whether you are contemplating your first marriage or in the middle of your third, this book will give you a new perspective into what makes a marriage work!
