Glad I got itBy Mompreneur with LoveI am in the planning stages of a separation and eventual divorce and first I thought this wouldn't pertain to me, but I would recommend this book even for anyone who is even considering a separation or divorce. There is a lot of information, check lists and even support receipts for you to copy and file and it gave me insight on the entire process and there were lots of things even after consulting with an attorney that I hadn't thought of.It does get repetitive sometimes, which is why I gave it only four stars. There are also great resources in the back of the book too.Highly recommend it!3 of 3 people found the following review helpful. Very Helpful BookBy Trudy J.

I found that this book was extremely helpful in getting prepared for the divorce process as well as helping you afterwards as well such as doing a budget. It has worksheets to help you with all the different processes that occur in a divorce and after. Take care, TJ
