Great bookBy Raymond HippsIt may be painful to get thru the divorce but by this book and its thoughts a very big help in my recovery.0 of 0 people found the following review helpful. Five StarsBy CustomerThis has been a tremendous help, highly recomnded5 of 5 people found the following review helpful. Read this book before or after your divorce. It helped!By A CustomerI had been married for 15 years to the only woman I ever had a relationship, then one day she divorced me. I was totally lost in the new world. I do not have any bad feeling against my ex-wife, but I kept slipping in some sort of depression. This book did a great job of explaining that I get in the depression because I miss daily contact with my only son. The book taught me to go slow in new relationship, I wish I read this book two months earlier. I was the worst case scenario in new relationship. However, The book cheered me up by pointing out that I am the best case scenario in many other areas such as financial, career... I think it will help those divorced people with financial problems as much as new relationship.
