Asset protection is a safety net. It doesn't guarantee that you won't get sued or run into other financial calamities; but if you do, you will lose fewer assets otherwise you're in 'free-fall,' vulnerable and exposed. Your lawyer may fight to defend you against a lawsuit, but your lawyer probably won't tell you to shelter yourself in the event they lose your lawsuit. That's something you must know and do! The first step is educating yourself this book will help you do just

that! The Doctors Wealth Protection Guide is a must have for every Doctor in every medical field. This book outlines reasons why asset protection is crucial, the basics of Asset Protection, various tools experts use to create plans, discussion of legal entities, pitfalls of general partnerships, liabilities, trusts, foreign assets, strategies for structuring medical practices, and much more... Asset Protection is so important today because you never know who will sue you. More so, doctors are more exposed to lawsuits than a normal individual as malpractice lawsuits are an everyday occurrence nowadays. Be proactive! Learn how to protect yourself from lawsuits and stay protected.
