From Barbara Budrich Publishers : The European Union A Global Actor? (Global Leadership) before purchasing it in order to gage whether or not it would be worth my time, and all praised The European Union A Global Actor? (Global Leadership):

Is the European Union a unified actor in world politics? The world's leading economic power is still struggling to find its role in shaping and maintaining global peace, free trade and commerce. How successful are the EU's Common Foreign and Security Policy and its institutions really? Renowned experts propose answers to these key questions.

This interdisciplinary book is structured in three parts: The first part contains a number of contributions which focus on institutions, policy frameworks and the history of the EU's common foreign and security policy. The second part aims at studying the EU's external relations with important international institutions and organisations as well as major regional powers and states. The final part reassembles articles which address key issues of the Union's external activities and analyze specific foreign policy areas in detail.
