From Brand: Cambridge University Press : The Future of Child and Family Law: International Predictions before purchasing it in order to gage whether or not it would be worth my time, and all praised The Future of Child and Family Law: International Predictions:

Child and family law tells us much about how a society operates, since it touches the lives of everyone living in that

society. In this volume, a variety of experts examine child and family law in thirteen countries - Australia, Canada, China, India, Israel, Malaysia, The Netherlands, New Zealand, Norway, Russia, Scotland, South Africa and the United States. Each chapter identifies the imperatives and influences that have prevailed to date and offers informed predictions of how it will develop in the years to come. A common chapter structure facilitates comparison of the jurisdictions and, in the introduction, the editor highlights common trends and salient differences. The Future of Child and Family Law therefore provides practitioners, academics and policy-makers with access not just to an overview of child and family law in a range of countries around the world, but also to insights into what has shaped it and options for reform.

About the Author Elaine E. Sutherland is Professor of Child and Family Law at the Law School, University of Stirling, Scotland and Professor of Law at Lewis and Clark Law School, Portland, Oregon, USA.
