Neill Nugent : The Government and Politics of the European Union: 6th (Sixth) Edition before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Government and Politics of the European Union: 6th (Sixth) Edition:

3 of 3 people found the following review helpful. Excellent first book to understand the EU!By Reynold PereiraFor anyone wanting to get a first taste of what the EU is all about, this is a 'must read' book. The contents have been carefully categorised such that the reader is gradually introduced to the various facets of the EU. I must add though that some of the topics do not go deep enough but perhaps the real aim of this book is only to get you on the right track in your journey to find out more about the EU. But nevertheless 'chapeau'.5 of 5 people found the following review helpful. Very informative, but pretty bland!By Virginia HawthorneI recently read this book for a European Politics Today class, and the teacher warned us ahead of time that it would be "hellish." It wasn't exactly hellish, but it definitely doesn't excite the reader like A Wider Europe by Michael Baun. For a pretty detailed overview of the history and workings of the European Union, this book could not be better, though.
