This book contains blank copies of all of the forms that would be required in the state of California and detailed instructions for how to complete them. If you are literate enough to read this review; you should be able to complete the guardianship process without hiring a lawyer. The book identifies situations where you will need to hire a lawyer; however, it should not be required if the

guardianship is not contested or does not involve an estate. If your possible guardianship involves the Childhood Protection Service (CPS), you do not actually need this book. The book may make the process more understandable; however, CPS will perform all of the necessary steps if they deem you a suitable guardian for a minor in their charge. You still may want to buy the book in case you need to move, travel or transfer the guardianship some day. Good luck.

By laurelbatzion I have used this book in the past and it is a great resource. Recently I got guardianship of my grandson and did not want to go through the courts. This allowed me to do what I needed to do.
