Patricia D King : The HIPAA Roadmap for Business Associates: A step-by-step guide to HIPAA/HITECH compliance before purchasing it in order to gauge whether or not it would be worth my time, and all praised The HIPAA Roadmap for Business Associates: A step-by-step guide to HIPAA/HITECH compliance:

4 of 4 people found the following review helpful. Closer to a HIPAA Pamphlet than a "Roadmap"By StefanDon't waste your money -- HIPAA is a complex piece of legislation and this book pretty much glosses over the entire thing. I was shocked how thin this book was when it arrived....I probably spent less than an hour reading it -- (it has been a while) IIRC, it completely skipped the privacy rule. How do you forget to put the privacy rule in?A *much* better resource is "The Practical Guide to HIPAA Privacy and Security Compliance" by Rebecca Herold and Kevin Beaver. More expensive and much longer, but worth the time and money. If you are in healthcare do your security and compliance right. Recent research indicates that healthcare is the most targeted/exploited vertical. You owe it to your clients and their patients to take this stuff seriously. This book does not guide you in that direction.Herold and Beaver's book will also tell you do things like see out legal counsel or professional guidance when appropriate. HIPAA is complex and requires customized solutions, cookie cutter approaches don't cut it.Source: Infosec professional with some experience in healthcare and with HIPAA.0 of 1 people found the following review helpful. Very helpful and informativeBy Janie DietzExcellent and can save your policy writers lots of money by following this outline.

The HIPAA Roadmap for Business Associates is a turnkey HIPAA/HITECH compliance program for small to medium-size business associates. The HIPAA Roadmap will lead you step-by-step through the tasks needed to comply with the HIPAA Security Rule, the Breach Notification Rule and relevant provisions of the Privacy Rule. 120 pages, including the Security Official job description; checklists and forms for performing security assessment; manual containing the policies needed to comply with the Security Rule; breach notification policy; business associate agreement amendment; training presentation, and more.

About the AuthorPatricia D. King, J.D., M.B.A. is a health care attorney based in the Chicago area. She has over 30 years of experience representing health care providers, including community hospitals, academic medical centers, multispecialty physician groups and provider-owned insurance entities. Pat has had a long-term interest in health information technology, including privacy and security of electronic health records, HIPAA compliance, health information exchange, and mhealth. She is a Vice Chair of the Health Information and Technology Practice Group of the American Health Lawyers Association, and a member of the Legal Task Force of HIMSS. Pat is a graduate of the University of Wisconsin Law School and the University of Chicago Booth School of Business.
