From Brand: Oxford University Press : The Institutions of the European Union (New European Union) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Institutions of the European Union (New European Union):

The Institutions of the European Union is the key text for anyone wishing to understand the functions, powers, and composition of the EU's institutions. From the Council of Ministers to the European Central Bank, all of the most important organizations are analysed and explained by international experts. The third edition has been fully updated

and includes the impact of the ratification of the Lisbon Treaty and the financial crisis in the Eurozone on the EU's institutions. Authoritative yet accessible, it remains the best guide to how this range of different bodies work together to provide political direction, manage policies, and integrate contrasting interests within the European Union.

from previous edition: "Lucid, comprehensive, and substantive ... combines invaluable description with perceptive and sophisticated analysis" --Professor Alberta Sbragia, University of Pittsburgh "Distinguished by the clarity and comprehensiveness of [its] institutional coverage" --Professor William E. Paterson, University of Birmingham
