**John Ordronaux : The Jurisprudence Of Medicine In Its Relation To The Law Of Contracts, Torts, And Evidence: With A Supplement On The Liabilities Of Vendors Of Drugs** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Jurisprudence Of Medicine In Its Relation To The Law

Vinogradoff, Paul. *Common Sense in Law*. New York: Henry Holt and Company, [n.d.] 1914. 256 pp. Reprinted 2006 by The Lawbook Exchange, Ltd. ISBN-13: 978-1-58477-653-6. ISBN-10: 1-58477-653-6. Cloth. \$95.\* This title by Sir Paul Vinogradoff [1854-1925] is a sophisticated introduction to jurisprudence. It is notable for its sociological interpretation, which was then a recent idea in Anglo-American jurisprudence. "We know very few short books, and not many books on a larger scale, so well fitted to give lay people a just notion of the spirit of modern law, and, what is not less important, to encourage practising lawyers in maintaining a liberal and dignified view of their profession.": Frederick Pollock, *Law Quarterly Review* 30 (1914) 236. This book was written for the Home University Series. These layman's guides are notable because several were written by distinguished authors.
