Elizabeth Mertz : The Language of Law School: Learning to "Think Like a Lawyer" before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Language of Law School: Learning to "Think Like a Lawyer":

0 of 2 people found the following review helpful. Five Stars By Michael E Jones This is an excellent book explaining how the Socratic method works in law school. 1 of 4 people found the following review helpful. Good book By Yi Zhang It is the great book for language socialization. It is also the required textbook for applied linguistics in language socialization.

In this linguistic study of law school education, Mertz shows how law professors employ the Socratic method between teacher and student, forcing the student to shift away from moral and emotional terms in thinking about conflict, toward frameworks of legal authority instead.

"Mertz has produced nothing short of a masterpiece in the linguistic anthropology of law and society, one of those rare interdisciplinary efforts that comes along every decade or so. Just as important, the depth of the analysis is matched only by the eloquence of her prose. Her clear writing, coupled with liberal use of data excerpts through out the chapters and the fact that the book is available in an affordable paperback edition, makes *The Language of Law School* an attractive text for a number of courses in linguistic anthropology, discourse studies, legal discourse, law and society, and legal socialization at graduate, undergraduate, and professional levels." --American Anthropologist
