From Brand: American Bar Association : The Law of Environmental Justice: Theories and Procedures to Address Disproportionate Risks before purchasing it in order to gage whether or not it would be worth my time, and all praised The Law of Environmental Justice: Theories and Procedures to Address Disproportionate Risks:

1 of 1 people found the following review helpful. Best Legal Book on Environmental Justice By
RosesAreRed Excellent overview of the legal aspects of this very important field. Really the only book of its kind in terms of its thoroughness.

Environmental justice is the concept that minority and low-income individuals, communities and populations should not be disproportionately exposed to environmental hazards, and that they should share fully in making the decisions that affect their environment. This volume examines the sources of environmental justice law and how evolving regulations and court decisions impact projects around the country.

About the Author Michael B. Gerrard is Andrew Sabin Professor of Professional Practice at Columbia Law School, where he teaches courses on environmental and energy law and directs the Center for Climate Change Law. He is also Associate Chair of the Faculty of Columbia's Earth Institute. Before joining the Columbia faculty in January 2009, he was partner in charge of the New York office of Arnold and Porter LLP, where he continues as Senior Counsel. He is author or editor of ten prior books, two of which were named Best Law Book of the Year by the Association of American Publishers: *Environmental Law Practice Guide* (twelve volumes, 1992) and *Brownfields Law and Practice: The Cleanup and Redevelopment of Contaminated Land* (four volumes, 1998). His other most recent books are *The Law of Green Buildings* (with Cullen Howe, 2010), *The Law of Clean Energy: Efficiency and Renewables* (2011) and *The Law of Adaptation to Climate Change: US and International Aspects* (with Katrina F. Kuh, 2012). Michael B.
