Jeffrey Miller, Craig Johnston : The Law of Hazardous Waste Disposal and Remediation: Cases-Legislation-Regulations-Policies, 2d (American Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Law of Hazardous Waste Disposal and Remediation: Cases-Legislation-Regulations-Policies, 2d (American Casebook Series):

Highlights the basic tension in environmental law: environmental integrity and economic growth; over-regulation and under-regulation; risk minimization and benefit maximization; command and control regulation and market incentives; federal and state levels of statutory interpretation; and the constitution, governing relations between the federal and state government as well as between the three branches of the federal government. For use in advanced and introductory courses in environmental law.
