John Sprankling, Gregory Weber : The Law of Hazardous Wastes and Toxic Substances in a Nutshell (Nutshells) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Law of Hazardous Wastes and Toxic Substances in a Nutshell (Nutshells):

The law of hazardous wastes and toxic substances is complex and constantly changing. It is a specialized field involving the overlap of law, science, economics, and the public policy it presents. This text covers the risks involved with and the regulation of the production, sale, use, and disposal of toxic substances. In addition, it briefly explores the special problems of nuclear materials.
