...By utahskiandhikePerforms well and provided positive results. Obviously snoring is a condition that is based in either lifestyle, physical condition or medical condition so one cannot assume something so simple would be the total resolution. But for the money the results were positive without a complex and cumbersome device. Did it totally resolve my snoring, no, but it helped hold my jaw in place so that I was more likely to breath through my nose and less likely to have my jaw slip into the position that exasperated my snoring. I'm hoping with time there may be a form of muscle memory that will help me improve with or without this device. I definitely had a positive experience by the simple fact that I was not waking up with a dry mouth, indicating that I was breathing more through my nose than my mouth. Worth a try and has improved my sleep.0 of 0 people found the following review helpful. French political libertarian and economist CLAUDE FRDRIK BASTIAT (1801-1850) was one of the most eloquent champions of the concept that property rights and individual freedoms flowed from natural law.
