Professor Emmanuelle Jouannet : The Liberal-Welfarist Law of Nations: A History of International Law before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Liberal-Welfarist Law of Nations: A History of International Law:

Although portrayed as a liberal law of co-existence of and co-operation between states, international law has always been a welfarist law, too. Emerging in eighteenth-century Europe, it soon won favour globally. Not only did it minister to the interests of states and their concern for stability, but it was also an interventionist law designed to ensure the happiness and well-being of peoples. Hence international law initially served as a secularised eschatological model, replacing the role of religion in ensuring the proper ordering of mankind, which was held to be both one and divided. That initial vision still drives our post-Cold War globalised world. Contemporary international law is neither a strictly welfarist law nor a strictly liberal law, but is in fact a liberal-welfarist law. In the conjunction of these two purposes lies one of the keys to its meaning and a partial explanation for its continuing ambivalence.

About the Author Emmanuelle Jouannet is a Professor of International Law at the Sorbonne, where she currently directs the interdisciplinary programme 'International Law and Justice in a Global World'.
