Ursula Furi-Perry : The Little Book of Fashion Law (ABA Little Books Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Little Book of Fashion Law (ABA Little Books Series):

Much has changed in the fashion industry since the end of World War II to require more highly developed legal skills

and, happily, a much greater allocation to legal expense. The industry is entirely global and a surprisingly large number of members have grown into mega multi-nationals, with large in-house legal departments and brand-name law firms to match the power of their own brand names. Explore the glamour and grit of the fashion world in this fun look at the stories behind the dresses, sunglasses, perfumes, and handbags.
