Cecil C., III Kuhne : The Little Book of Hunting and Fishing Law (ABA Little Books Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Little Book of Hunting and Fishing Law (ABA Little Books Series):

0 of 0 people found the following review helpful. Each chapter is followed by a turn of the century piece about what

hunting was like at that time and those are interesting
By Cracker Cowboy
This book is just ok and I'd take issue with some of the decisions and their reasoning. Each chapter is followed by a turn of the century piece about what hunting was like at that time and those are interesting.

The Book examines where the law, and hunting and fishing have intersected, often with intriguing results. You'll find cases involving personal injuries, product liability, intellectual property, and freedom of religion that will provide hours of compelling reading. This book takes a light-hearted look at thirteen cases involving hunting and fishing including issues involving exploding shotguns, poaching, trademarked fishing poles, search and seizure, recovering lost profits, animal sacrifice, assumption of risk and much more.
