Liu Si Da : The Logic of Fragmentation: An Ecological Analysis of the Chinese Legal Services Market (Chinese Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Logic of Fragmentation: An Ecological Analysis of the Chinese Legal Services Market (Chinese Edition):

It is a large empirical study to China legal profession. The author follows the ecological analysis of Chicago school of sociology and it gives a complete social scientific analysis to the competition and specification to the facts of China legal services market.
