It is very informative and the Blank Court forms are so easy to fill out and use. You save so much money with this book IF you can work out all details between you and your spouse. It helps guide you thru all the steps and the little procedures you are made to go thru so the various court offices i.e. Friend of the court (exactly what it says NOT your friend ONLY the courts) get their share of the monies you have to pay even when they do nothing for you. I highly recommend this book to anyone seeking to file for Divorce and needing a "Do It Yourself Divorce" guide. This is full of facts about All the aspects of divorce and how it can affect both parties. 0 of 1 people found the following review helpful. By Jeffrey Zoeller This book has loads of common-sense divorce information. I am a divorce lawyer in Michigan and I learned of the book when a

client of mine showed it to me. I was surprised at the quality of the information. This book is accurate and up-to-date and explains difficult concepts in an easy to understand manner. I tell all my divorce clients about it and suggest that they buy the book. This book is worth many times the price in answering questions that most people have when going through a divorce. If you have a divorce lawyer, buy it and save by not having your lawyer answer basic questions. If you don't have a lawyer, this book will let you know what to expect in a divorce.
