Terrific reading for legal nurse consultantsBy Kindle CustomerThis publication should be in every legal nurse consultants library. I teach classes regarding HEALTH CARE PROFESSIONALS AND THE LAW. I refer to this publication in several sections of my power point presentation. I would encourage every nurse to obtain a copy of this book to keep themselves out of the courtroom.

THE NURSE'S LIABILITY FOR MALPRACTICE is a programmed (self-contained course) text designed to teach nurses about their legal liability for acts of malpractice. The presentation of up-to-date, authoritative information, the simple format, the inclusion of a wide variety of nursing practice situations in different settings (hospitals, home health, and long-term care facilities) make this text the most relevant, practical, and useful nursing malpractice text available.
