Dorian S. Berger, A. T. Mann : The Paralegal's Guide To The Microsoft Office System (Vertiguide) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Paralegal's Guide To The Microsoft Office System (Vertiguide):

Essential bookBy Michael CundiffI haven't read all through this book yet, but I have a feeling that it will come in very handy in my studies for my degree in Paralegal.If you are going to school to be a Paralegal, I recommend you get this book and also "Paralegal Careers for Dummies".

The Microsoft Office System is the most popular desktop suite of personal productivity tools and technologies. Because the Microsoft Office suite of tools is so comprehensive, it can be challenging for people in certain professions

to understand how to use Office to perform tasks specific to their job. This book focuses on the tasks a Paralegal performs every day rather than the all too common software-centric approach that many other technology books habitually adopt. Other Microsoft Office books on the market for the legal profession are often difficult to understand because they largely address an Information Technology (IT) audience, cover too many professions in a single book, or are so large (more than 800 pages) as to be overwhelming. This book was written with Paralegals in mind. In fact, this book was developed by consulting and interviewing industry experts, legal trainers, technology experts, attorneys, and of course, Paralegals. The authors learned exactly which topics were most troublesome for Paralegals, and made sure to explain them thoroughly. This book covers the use of these Microsoft Office System products for Paralegals: - Microsoft Word 2003 -Microsoft Excel 2003 -Microsoft Outlook 2003 -Microsoft PowerPoint 2003 -Microsoft OneNote 2003 This book helps Paralegals cut through the hard stuff, and makes Microsoft Office work for them. This book comes with free bonus materials: -Additional Legal Templates -Advanced Chapters -Keyboard Shortcut References

"Excellent resource for Paralegals using Office 2003...the easy-to-follow format ensures this book will become a must for Paralegals today!" -- - Gina Buser, President, Traveling Coaches, Inc."This is a great book for non-techies. Its friendly style and practical examples will help Paralegals quickly learn the basics." -- - Ian D. Levit, Vice President, Levit James, Inc.
